

**LESLIE E. MEZEI, MD, FACC**

Dear Patient:

Thank you for choosing our office for your cardiology needs. We look forward to meeting you at your appointment with Dr. Leslie Mezei. You will find a map on our website to assist you in locating our office. Please notify our office 48 hours in advance if you are unable to keep your appointment.

Our new patient forms are also located on the website for your convenience. Please download the forms and complete them prior to your appointment and bring them with you. We ask that you bring your insurance card(s) with you as well, so that we may copy them for our files.

As a reminder, many HMO insurance companies require a referral to see a specialist. If your insurance company requires a referral, **it is your responsibility to make sure that you have your referral prior to seeing the physician.** Please contact your primary care physician to obtain your referral in time for you appointment.

All co-payments will be due upon your arrival. We accept cash, check, or money orders. We also accept Visa or Mastercard.

If you have been referred by another physician, we ask that you arrange for any pertinent information regarding your health to be sent to our office prior to your visit (i.e. Any cardiac testing, last office note from the referring physician, recent lab work, etc.). Also, please bring with you a list of all medications that you are currently taking so that we may copy them for our records.

Please call our office if you have any questions regarding your appointment.
